### CONFORMATION CLASSES /PERFORMANCE CLASSES

We have arranged to rent the Sportsman's Repair Shop rental space for dog classes, starting 9/26/09 and running for 8 weeks through 11/14/09. We will start at noon. Cost to members for the conformation classes will be 40.00 per person. Non-members will be 60.00 per person. Those who teach a class will get 5.00 off for each class they teach.

**TIME - we begin conformation class at noon.**

As a reminder, the class at Sportsmans Repair in Mosinee begins on 9/26 and is 40.00 per person, held indoors on a fully matted floor.

Payment is due to me by Sept. 19th. Checks made to PCKC.

Vickie

HERDING INSTINCT TEST  
Camp Bandy – Amherst Junction WI  
Saturday, September 12, 2009  
1:00 pm -3:00 pm

Open to AKC herding breeds and mixes thereof  
Non-AKC sanctioned

No prior herding experience necessary  
Dogs should be minimally 6 months of age

\$30 per dog, 20 dog limit

***DOGS & CATS DUKE IT OUT FOR TITLE OF AMERICA'S MOST PREFERRED PET***

***Are you a Dog or Cat Person? Vote Now @ [www.meetthebreeds.com](http://www.meetthebreeds.com)***

**New York, NY** – For eons, people have argued over which is better – Men *or* Women, Republicans *or* Democrats, Batman *or* Spiderman and Vanilla *or* Chocolate. But for pet owners the most heated debate of all is– Dogs *or* Cats. Having been our faithful companions for centuries, dogs and cats are the most popular domesticated pets in the world, bringing joy and comfort to millions of people. But, as beloved as our pets are, there can only be one true ruler of the ‘Companion Animal’ kingdom! It all comes down to whether your ‘best friend’ is the “cat’s meow” or “top dog.”

Inspired by the upcoming Meet the Breeds™ event, the world’s largest showcase of cats and dogs, the American Kennel Club® (AKC) and the Cat Fanciers’ Association® (CFA) have joined forces to put an end to this long-running dispute once and for all with a definitive one-question survey: “Are you a dog or cat person?” You can weigh in and cast your vote now at [www.meetthebreeds.com](http://www.meetthebreeds.com).

The arguments are convincing on both sides. Dog lovers boast that canines are social animals and don’t need a litter box, will guard and protect you, can be taught tricks and can always be counted on to adore you. Cat lovers brag that felines are affectionate, regal, slobber-free, self-cleaning, lap-sitting, purr-in-your-ear companions who won’t disturb the neighbors while you’re at work.

In fact, one meetthebreeds.com cat voter said, "If people were more cat-like we'd be able to separate pretenders from the real thing, take better care of ourselves, do what pleases us instead of what pleases everybody else, and enjoy life more." A dog voter, on the other hand, argued that "Dogs will offer themselves up to save their military and police handlers and will face any challenge to try and help a human in need. They have stood alone at night guarding the herdsman flock and stood by the side of a fallen loved one offering comfort."

While this is a debate almost everyone can weigh in on, could the feline vs. canine conundrum be behind some of Hollywood's biggest conflicts? According to Denise Richards, her eldest daughter Sam was named after ex-husband Charlie Sheen's cat. Denise explained that Charlie loved the cat so much he insisted on his daughter having the same name. Since the divorce, Denise, who currently has 10 dogs, has been quoted as saying "we don't have the cat anymore." [Visit our Web site](#) to learn more about celebrities and their relationships with their pets.

As for you, we need your vote by October 6, 2009. Visit [www.meetthebreeds.com](http://www.meetthebreeds.com) and after you place your vote, check back at any time to see what pet is ahead or write to us at [meetthebreeds@akc.org](mailto:meetthebreeds@akc.org) to tell why you voted the way you did. Also download free virtual "Dogs are #1" and "Cats are #1" stickers for your Web site, blog or social media pages.

Sponsored by PetPartners, Inc. a leading pet healthcare provider, Meet the Breeds will be held October 17 & 18, 2009 at the Jacob K. Javits Convention Center in New York City. From the Afghan Hound to the Turkish Angora, the event will showcase 160 AKC registered dog breeds and 41 CFA registered cat breeds in booths individually decorated to depict each breed's country of origin, historical purpose/function, and attributes as a family pet. The family-friendly event is an opportunity for potential pet owners to interact with responsible breeders and play with dogs and cats while educating themselves about responsible pet ownership and choosing the right pet for their lifestyle.

Event hours are from 10 a.m. to 5 p.m. both Saturday, October 17, and Sunday, October 18. Tickets allow admittance for one day and can be purchased at [www.meetthebreeds.com](http://www.meetthebreeds.com).

###

About Meet the Breeds -- With 160 dog breeds and 41 cat breeds, plus demonstrations, shopping and children's activities, no pet lover will want to miss Meet the Breeds. Each breed will be presented in its own designated space, decorated to reflect its heritage, characteristics and unique attributes as a pet, while allowing attendees to literally "Meet the Breeds" by petting dogs, cats, puppies and kittens and learning about them directly from the experts. The event is proudly presented by [PetPartners, Inc.](#) a leading pet healthcare provider, and will feature over 115,000 square feet of dog and cat festivities. Sponsors include Invisible Fence® Brand, ADT Security Services, JAKKS Pets™, Iams, WebVet, YourDogsHeart.com, Paramount Chemical Specialties Inc., GoPetFriendly.com, Hartz, and Continental Airlines. Get your tickets now at [www.meetthebreeds.com](http://www.meetthebreeds.com).

**The American Kennel Club** (AKC) proudly celebrates its 125th Anniversary in 2009. Since 1884 the not-for-profit organization has maintained the largest registry of purebred dogs in the world, and today its rules govern more than 20,000 canine competitions each year. The AKC is dedicated to upholding the integrity of its registry, promoting the sport of purebred dogs and breeding for type and function. Along with its nearly 5,000 licensed and member clubs and its affiliated organizations, the AKC advocates for the purebred dog as a family companion, advances canine health and well-being, works to protect the rights of all dog owners and promotes responsible dog ownership. Affiliate AKC organizations include the AKC Humane Fund, AKC Canine Health Foundation, AKC Companion Animal Recovery and the AKC Museum of the Dog. For more information, visit [www.akc.org](http://www.akc.org).

AKC, American Kennel Club, the American Kennel Club seal and design, and all associated marks and logos are trademarks, registered trademarks and service marks of The American Kennel Club, Inc.

**The Cat Fanciers' Association**, Inc. (CFA) was founded in 1906 as a non-profit association of member clubs and is the world's largest registry of pedigreed cats. CFA's mission is to preserve and promote the pedigreed breeds of cats and to enhance the well-being of ALL cats. CFA promotes education, responsible cat ownership and proper care to the owners of millions of cats worldwide. CFA and its affiliate clubs work nationally with local shelters, at a grassroots level, to help humanely reduce homeless and feral cat populations, and to encourage voluntary neuter/spay of pet cats. To learn more about the Cat Fanciers' Association, the pedigreed breeds of cats, or to find the nearest CFA cat show, visit their web site at [www.cfa.org](http://www.cfa.org).

[EDITOR'S NOTE: Additional resources – including interviews with an AKC or CFA spokesperson and photos/b-roll of dogs and cats – are available upon request. Please contact the AKC communications department at (212) 696-8343 or [communications@akc.org](mailto:communications@akc.org).]

1. If I like it it's Mine.
2. If it's in my mouth, it's Mine.
3. If I can take it from you, It's Mine.
4. If I had it a little while ago, it's Mine.
5. If it's Mine, it must never appear to be yours in any way.
6. If I'm chewing something up, all the pieces are Mine.
7. If it just looks like mine, it's Mine.
8. If I saw it first, it's Mine.
9. If You are playing with something and you put it down, it automatically becomes Mine.
10. If it's broken, it's yours

## **The State of Texas v. A Very Good American Pit Bull Terrier Owner August 19, 2009**

Today I was set for trial in a case that is the worst nightmare for any owner of an American Pit Bull Terrier or other large dog. Here's how this tale transpired:

On February 11, 2009, David was walking his American Pit Bull Terrier on a six foot leash as he dutifully does three times per day. Yes, three. Pica is nine years old and had been rescued as a puppy and taken in by David and his wife. She is spayed and lives in their house in an upscale neighborhood as a beloved family member. David has a managerial position in a petro-chemical company and has been employed in this sort of work for twenty-five years. His wife manages a boarding kennel.

While David was walking their family pet by his side, a loose dog came out of nowhere from behind them without warning and promptly bit Pica in the face. It happened fast. Pica responded and grabbed the dog's ear. She did not shake the dog or bite elsewhere but hung on briefly. David recognized the dog, a Shih Tzu that frequently ran loose, and called for the owner to come get her dog. She lived a couple of doors down from where the incident occurred.

Another neighbor comes out with a gun and points it at David admonishing him that if Pica did not let go of the other dog he was going to shoot Pica and then her owner.

Pica relinquished the other dog and it had a puncture to the ear but fortunately the ear was okay as was the dog. David was upset, not because the little dog was running loose again, but because he just had a loaded gun pointed at him and his dog. So, he called the police.

David's wife took Pica to the vet because the extra eyelid on the dog was shutting and it appeared she had been scratched in the eye. An eye stain was done and antibiotics prescribed for her eye.

Guess what happened? If you guessed that nothing happened to the owner of the Shih Tzu that was running loose, you would be right. If you guessed that nothing happened to the neighbor that came out with a loaded gun, you would be right. And if you guessed that Pica and David got blamed for this, you would also be right. David was charged with failure to control/restrain his dog. The owner of the Shih Tzu lied and said her dog was not loose and regardless that it was David who called the police; he was the one who got charged with the Class C Misdemeanor.

So today the trial was set and I had the honor of representing Pica and her owner. Fortunately, the case was dismissed because the state failed to produce its witness, the owner of the Shih Tzu, but we were prepared to go to trial. A wonderful neighbor who happens to be a groomer came to court to testify that she had seen the little dog out numerous times, at least ten, and had even taken the dog back to its owner shortly before this happened. I had a trial notebook, there were motions, there was investigation, pictures of Pica, and even a subpoena for the 9-1-1 call. We even had Pica's leash and collar, worn from use, in the courtroom. This was the lengths we were prepared to go to vindicate David and Pica, but it went much further than that.

We felt like we had to stand up for the breed and every owner of these fine dogs who get falsely blamed for all sorts of things. Would it have been easier and cheaper to pay the \$160 fine? Sure, but one more owner and his dog would have paid a price for something that they did not do. Three people (David, his wife and their neighbor) took off work to come to court today and set the record straight. Three people stood up and fought back so that the reputation of the American Pit Bull Terrier and other similar dogs would not be further tarnished today. Today was a good day for the dogs. So many aren't, but today there was justice.

Finally, as owners of these dogs and other big dogs, we have to be vigilant to always make sure our dogs are properly contained, leashed and socialized. There is zero tolerance for our dogs, and sometimes, even when we do everything right, we still can be falsely accused. And if that happens, we have to be willing to stand up and fight for our rights as dog owners and for the good pitties that so many of know and love. Tonight I will hug mine extra close before we fall to sleep.

Zandra Anderson

Permission to Cross post

### **The following was found posted very low on a refrigerator door:**

**Dear Dogs and Cats:** The dishes with the paw prints are yours and contain your food. The other dishes are mine and contain my food. Placing a paw print in the middle of my plate and food does not stake a claim for it becoming your food and dish, nor do I find that aesthetically pleasing in the slightest.

The stairway was not designed by NASCAR and is not a racetrack. Racing me to the bottom is not the object. Tripping me doesn't help because I fall faster than you can run.

I cannot buy anything bigger than a king sized bed. I am very sorry about this. Do not think I will continue sleeping on the couch to ensure your comfort, however. Dogs and cats can actually curl up in a ball when they sleep. It is not necessary to sleep perpendicular to each other, stretched out to the fullest extent possible. I also know that sticking tails straight out and having tongues hanging out on the other end to maximize space is nothing but sarcasm.

For the last time, there is no secret exit from the bathroom! If, by some miracle, I beat you there and manage to get the door shut, it is not necessary to claw, whine, meow, try to turn the knob or get your paw under the edge in an attempt to open the door. I must exit through the same door I entered. Also, I have been using the bathroom for years - canine/feline attendance is not required.

The proper order for kissing is: Kiss me first, then go smell the other dog or cat's butt. I cannot stress this enough.

Finally, in fairness, dear pets, I have posted the following message on the front door:

### **TO ALL NON-PET OWNERS WHO VISIT AND COMPLAIN ABOUT OUR PETS:**

They live here. You don't.

If you don't want their hair on your clothes, stay off the furniture. That's why they call it 'fur'-niture. I like my pets a lot better than I like most people. To you, they are animals. To me, they are adopted sons/daughters who are short, hairy, walk on all fours, and don't speak clearly.

Remember, dogs and cats are better than kids because they:

- eat less
- don't ask for money all the time
- are easier to train
- normally come when called
- never ask to drive the car
- do not hang out with drug-using people
- don't smoke or drink
- don't want to wear your clothes
- don't have to buy the latest fashions
- don't need a gazillion dollars for college
- if they get pregnant, you can sell their children

### **Dog Treat Recipes**

A client gave me these recipes and they are great. I made them this past weekend and they were easy and well received by our dogs. I thought I'd share them with you. Happy baking!

#### **Basic Gourmet Dog Snack**

These are easy and very good (well at least my parents dog loves them!).

##### Ingredients:

- 3/4 cup cornmeal
- 1/2 cup vegetable oil
- 3 cups whole wheat flour
- 1 cup water or broth (chicken or beef broth {avoid bouillon with onion})

##### Directions:

1. Preheat oven to 375 degrees F.
2. Mix together all ingredients.
3. Gently roll out to 1/4 inch thickness.
4. Cut into desired shapes with cookie cutter.
5. Bake 30 – 40 minutes
6. Allow to cool and store in a tightly sealed container.

#### **Easy Microwave Doggie Treats**

These are also easy and turn out very good. I was a little apprehensive about trying this recipe the first time but now it is one of my favorite dog treat recipes.

##### Ingredients:

- 1 cup whole wheat flour
- 1/2 cup plain flour
- 1/4 cup cornmeal
- 3/4 cup dry milk
- 1/3 cup shortening (5 1/3 Tbsp)
- 1 tablespoon bouillon granules (beef or chicken {avoid onion flavored bouillon})\*
- 1/2 cup quick-cooking oats
- 2 tablespoon sugar
- 1 egg slightly beaten
- 1/2 cup hot water

##### Directions:

1. Combine flour, cornmeal, milk, oats and sugar.
2. Cut into shortening.
3. Add egg, bouillon and hot water.
4. Knead 5 minutes.
5. Roll 1/2 inch thick and cut out with cookie cutters. (Bone shapes are great! The smaller shapes work better and allow the cookie to cook more evenly. If possible – avoid extra large cookie shapes for this microwave recipe.)
6. Microwave in a microwave proof dish at 50% power for 5 to 10 minutes. (I've always needed close to 10 minutes).
7. Allow to cool – remove from plate.
8. Allow to cool and store in tightly sealed container.

\* If you don't have the granules – use one bouillon cube in the 1/2 cup of hot water. Allow to dissolve and this works great too.

**“Breed shows aren't just live art. Purebred dogs are elements of our shared cultural heritage that we have the opportunity to preserve for posterity.”**

**Patricia Princehouse, AKC Judge**

**“A breeders adherence to the breed Standard is only controlled by one's pride.”**

**Canine Owners & Breeders  
Symposium**

**Saturday  
October 3, 2009**

presented by:

SCHOOL  
of

VETERINARY MEDICINE

UNIVERSITY OF WISCONSIN - MADISON

## ABOUT THE COURSE

Welcome to the *2nd Annual Canine Owners & Breeders Symposium!* This program is designed to educate owners and breeders on important and relevant canine health care topics.

The first two topics will cover information related to congenital heart disease and orthopedic conditions in young dogs. Conditions such as hip dysplasia, elbow dysplasia and cranial cruciate disease will be highlighted, but other conditions will be presented. The speakers will leave ample time for questions and discussions.

Then, Dr. Sandi Sawchuk will present two topics: *Dog Parks: A Veterinarian's Perspective* and *What's New in the Management of Canine Noise Phobias*. The first topic will answer questions such as: what makes a good dog-park; what makes a good dog-park dog; what makes a good dog-park dog-owner; and how to break up a dog fight. The second topic will cover issues such as behavior management; what is DAP; thunderwear - does it work; over the counter medications; prescription medications - what to use and what not to use.

Our speakers are leaders in their fields and have been carefully chosen for their ability to share their knowledge and expertise. If you were able to attend last year's premiere program, we look forward to seeing you again. If you didn't attend previously, we invite you to join us this year and hope that this annual series will become a regular part of your canine health care education.

## COURSE SCHEDULE

- 1:00 pm Welcome & Introductions - *Dr. Heidi Kellihan*
- 1:10 pm **Orthopedic Conditions of the Adolescent Dog**  
- *Dr. Paul Manley*
- 2:20 pm Break
- 2:30 pm **Congenital Heart Disease and Current Treatments**  
- *Dr. Heidi Kellihan*
- 3:40 pm Break
- 3:50 pm **Dog Parks: A Veterinarian's Perspective**  
**What's New in the Management of Canine Noise**  
**Phobias?** - *Dr. Sandi Sawchuk*
- 5:30 pm Adjourn

## COURSE INSTRUCTORS

**Heidi Kellihan, DVM, DACVIM** (cardiology), earned her DVM degree from the University of Illinois - Urbana in 2002, then went on to a small animal rotating internship at Steve Ettinger's California Animal Hospital in Los Angeles. She completed a cardiology residency at the University of Wisconsin-Madison in 2006 and joined the school's cardiology staff after attaining board certification. Currently, she is expanding the school's small animal cardiology services to Sun Prairie, WI by way of the new UW Veterinary Care branch referral facility there.

**Paul Manley, DVM, MSc, DACVS**, was born in Toronto, Canada and received his DVM and MSc degree at the Ontario Veterinary College in Guelph, Canada, completed a Surgery Residency at the University of California-Davis and a Surgical fellowship at Colorado State University in Fort Collins. After specialty private practice in South Weymouth MA, Dr. Manley joined the faculty of the University of Wisconsin, School of Veterinary Medicine in 1985, where he specializes in Orthopedic Surgery. He is Professor of Orthopedic Surgery and Chief of Small Animal Service and is a Diplomate of the American College of Veterinary Surgery.

**Sandi Sawchuk, DVM, MSc, DACVS**, a regular guest on WISC-TV and Wisconsin Public Radio, Dr. Sandi received her DVM from the Ontario Veterinary College (1980). She continued her Internship and residency (neurology) at the University of Illinois - Urbana (1980-1984). After 3 years of private practice Dr. Sawchuk joined the faculty at the SVM in 1987. She is a clinical instructor and section head of the Primary Care Service in the VMTH.

## GENERAL INFORMATION

**Date:** Saturday, October 3, 2009  
**Time:** 1:00 p.m. - 5:30 p.m.

**Location:** UW School of Veterinary Medicine  
2015 Linden Drive, Madison, WI  
608-265-5206

*A map with directions will be mailed with your confirmation letter.*

**Parking:** Lot 62 (located directly across from the UW School of Veterinary Medicine on Linden Dr.) has FREE parking available on 10/3/09.

### Please register early!

Registrations will be accepted on a first-come, first-served basis.

### Cancellations/ Refunds:

We reserve the right to cancel the conference due to insufficient enrollment 1 week prior to the start of the conference. We are not liable for travel/lodging expenses incurred by participants, but will issue full registration refunds if we cancel the conference. Participants whose cancellations are received up to 10 days prior to a program will be refunded 80% of the program fee. Cancellations received less than 10 days prior to a program will be refunded 50% of the fee. **NO refunds for failure to attend without notification.**
